RE: COVID-19 Vaccination TERRACES' residents

Dear Terraces' Residents and Families,

We received notice yesterday evening from NYS DOH that residents of adult care facilities are now eligible to receive COVID-19 vaccination through a CDC contracted pharmacy partner beginning January 11, 2021.

The Brookmeade Community has partnered with CVS pharmacy. CVS pharmacy will contact us to schedule in-house vaccine clinics. Pharmacists will be onsite to administer the vaccine and monitor post-vaccination.

I will keep you posted with specifics as they are confirmed. We are grateful and pleased that this is now approved and available.

Please contact me directly should you have any questions at info@brookmeadecommunity.org or call extension 110.

I wish you all a happy, safe and healthy New Year! Here is to 2021!
