

January 7<sup>th</sup>, 2021

Dear Meadow's Family and Friends,

Effective 1/11 staff testing for COVID-19 will increase to twice weekly.

Our second vaccine clinic is scheduled for Saturday January 16th. Many will have their second dose at this clinic. We are excited for this as this gives us the best chance to fight this virus.

Each time there is an employee who is positive we conduct extensive contact tracing. Since our last positive employee case our contact tracing resulted in furloughing 3 staff members due to exposure removing them from work. They will remain furloughed for 14 days and can return to work after a negative test result.

From the staff testing we did on 1/5, one staff member tested positive. This person will be furloughed for a minimum of 14 days and can return when their test is negative.

We conducted full house resident testing on 1/6. We will test again on 1/11 and again on 1/15. As we receive our resident results we will contact you directly.

As always, I thank you for your patience and your support during this time. We are grateful for your well wishes, thoughts and kind words.

Please contact me directly at [info@brookmeadecommunity.org](mailto:info@brookmeadecommunity.org) for further information.

Stay safe and be well,

*Karen Z.*
