Re: COVID VACCINE CLINIC at Brookmeade

Dear Families and Friends,

On this one year anniversary of this pandemic, we are honored to announce the ability to help vaccinate against this horrific virus.

We are proud to partner and collaborate with Dutchess County Office of the Aging and Rite Aid pharmacy to administer the COVID 19 Vaccine.

Those that qualify include teachers and anyone that is 60 years of age or older.

If you qualify and are interested or know of someone that is, please immediately email us at info@brookmeadecommunity.org.

The clinic will be held on Monday March 15th and the second dose is scheduled for Monday April 12th. You must be available for both days.

We at Brookmeade are here to support and assist our community members.

Be well and stay safe,

Karen Zobel
